

How To Fix A Broken Makeup Brush

This guide will provide easy, clear instructions on how to fix a make-up brush in 5 steps.

Written By: Shanae Swack

INTRODUCTION

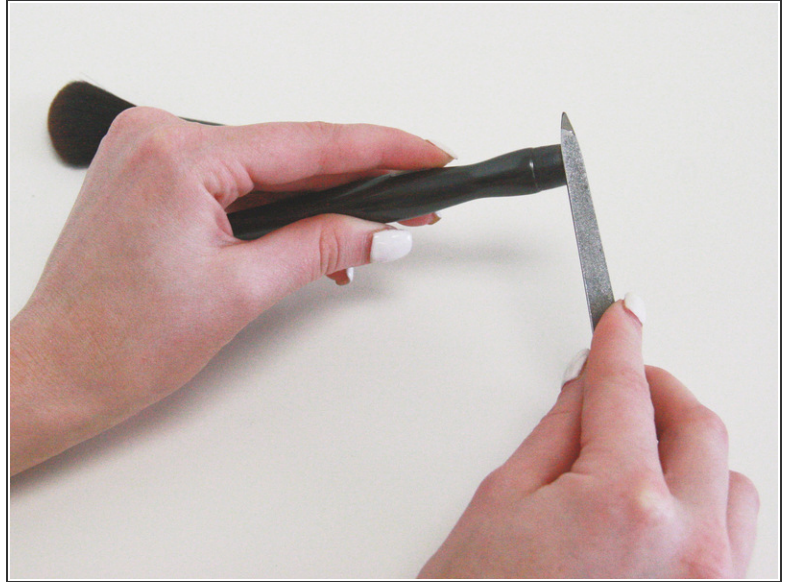

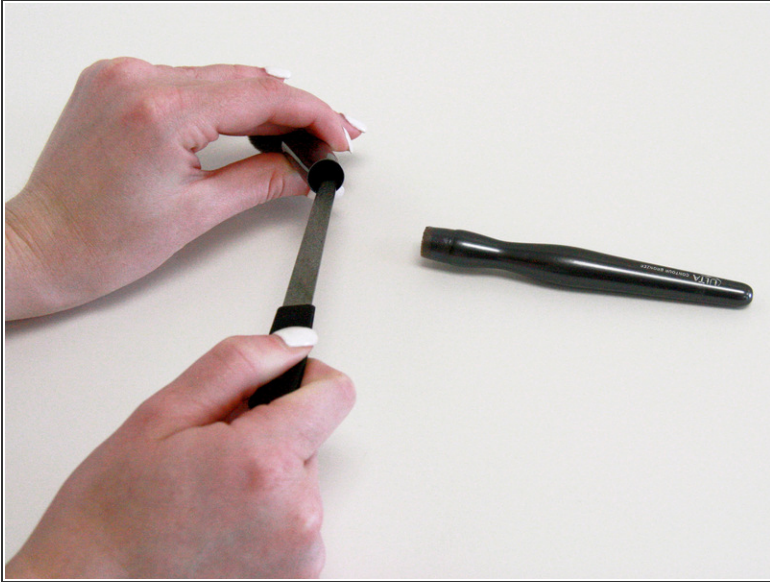

Broken makeup brushes are a common issue and can be expensive to replace. We have composed a simple 5 step guide on how to quickly fix a broken makeup brush. Prior to beginning the fast fix, be sure to plug in the hot glue gun for at least 5 minutes to allow it to reach adequate temperature.

TOOLS:

- [Broken makeup brush](#) (1)
 - [Hot glue gun](#) (1)
 - [Hot glue sticks](#) (1)
 - [Nail File](#) (1)
 - [Paper Towels](#) (1)
-

Step 1 — How To Fix A Broken Makeup Brush

- Remove excess glue on the handle and the base of the brush using a nail file.

Step 2

- Use the hot glue gun to apply glue to the inside base of the brush where the handle is attached.
- ⚠ Be cautious of the high temperature of the glue and gun when handling.

Step 3

- Slowly place the brush head onto the handle and apply pressure for 15 seconds.

Step 4

- Remove excess glue from the brush using a paper towel.

Step 5

- Let the glue dry for 2-3 minutes to be sure it is securely attached.
